

PRESSE RELEASE

RATP Group's expertise in major events: a proven and scalable approach serving opportunities in Australia

Paris, March 19, 2025 – As part of a tour organized in Sydney, Brisbane, Melbourne and Singapour from March 17 to 21, RATP Dev, a subsidiary of RATP Group, in partnership with PTAANZ, is meeting with key local stakeholders to share the Group's expertise in managing major events.

Building on the recent success of the Paris 2024 Olympic and Paralympic Games, led by RATP Group, RATP Dev aims to showcase how the Group's proven and scalable approach can be replicated worldwide, offering tailor-made solutions for major events and urban transformations.

During this tour, RATP Dev and PTAANZ will highlight the best practices and explore opportunities for collaboration on future projects. As Australia prepares to host the 2032 Olympic and Paralympic Games in Brisbane, RATP Dev, a subsidiary of RATP Group, is offering to share its experience in orchestrating complex transport operations for major international events.

RATP Group's unmatched expertise in major event mobility

For decades, RATP Group has been at the forefront of mobility management for the world's largest events, providing reliable and scalable transport solutions for millions of passengers. From the Tour de France (cycling) to the 2023 Rugby World Cup and EURO 2016, supported by RATP, as well as the 2010 FIFA World Cup in South Africa and the 2022 FIFA World Cup in Qatar, where RATP Dev contributed, each event has been an opportunity to assist its clients. The Paris 2024 Olympic and Paralympic Games were no exception.

Thanks to its adaptability and efficient methodologies, RATP Group helped make this event a success. With public transport at its core, the Group ensured that every movement, every connection, and every journey reflected the excellence of its network.

For **Edgar Sée, Deputy International Director of RATP Dev and former Deputy Director for the Olympic and Paralympic Games at RATP Group**: *"The Paris 2024 Olympic Games showcased our ability to efficiently manage large-scale projects and ensure seamless mobility during international events. Building on this experience, we now aim to support Brisbane 2032 by sharing our expertise in managing complex transport operations."*

For **Henri Pottier, Managing Director Asia-Pacific at RATP Dev**: *"In partnership with PTAANZ, we are bringing our expertise to Australia to support cities in hosting major events. In particular, we aim to contribute to strengthening public transport networks in the context of large-scale events. Thanks to our proven expertise during the Olympic Games, we focus on continuously optimizing infrastructure to ensure efficiency and leave a lasting legacy for the country."*

Paris 2024, the keys to success: a structured approach

RATP Group's expertise in major events is based on three pillars:

- **Anticipation:** Years of preparation and experience have allowed RATP Group to anticipate challenges, refine its processes, and develop adaptive transport solutions.
- **Collaboration:** Working closely with local authorities, the Paris 2024 organizers, and security forces ensured a seamless, unified approach for a flawless Games experience.
- **Mobilization:** With 35,000 dedicated employees, from experienced professionals to volunteers, the entire RATP Group mobilized to embody the Olympic spirit, delivering excellence at every stage.

Operational excellence and infrastructure improvements

The Metro Line 14 and its extension, operated by RATP on behalf of Île-de-France Mobilités, exemplify RATP Group's commitment to innovation and efficiency. Connecting Saint-Denis Pleyel to Orly Airport in 40 minutes, the extension of this high-capacity, fully automated line was delivered on time and within budget, despite the challenges posed by the Olympic Games. With 800,000 daily passengers, it combines reliability, speed, comfort, and energy-efficient trains.

The Group's operational excellence was also demonstrated in real-time network management. From late departures at Roland-Garros to unexpected surges in traffic, continuous monitoring and adaptive strategies ensured smooth journeys for passengers, supported by a robust incident response system.

Paris 2024

Unprecedented Transport Operations

- ✓ **100+ unique transport services** (metro + RER) specifically designed for the Games
- ✓ **130+ bus lines** with adjusted routes before and during the Games

Massive Mobilization of Teams

-  **35,000 employees** (drivers, operators, station staff, security, maintenance) mobilized daily
-  **5,000 field agents** (purple vests) deployed each day across the network to assist passengers
-  **2,700 RATP Group employees** volunteered to support passengers
-  **54 crisis exercises** conducted to ensure maximum responsiveness
-  **250 additional metro drivers** recruited to meet increased demand

Unprecedented Passenger Flow

- ◆ **1 to 1.5 million additional trips per day**, smoothly integrated into the network
-  **90 stations optimized** for signage, mobile ticketing, and flow management during peak attendance times at the Games

Managing the Surge

- ★ **+75% increase in passenger numbers** at certain stations serving competition venues, managed in real-time

Traffic change in August: from the usual -30% decrease to +15% on weekdays and +30% on weekends.

About RATP Dev

RATP Dev is a subsidiary of the RATP Group, global leader in high-capacity urban rail and the world's third largest public transport operator. All over the world, our 21,000 people design, operate, maintain and modernise public transit networks of automated metros, commuter rail, tramway, bus and many other modes. We have forged our expertise in the ultra-dense, constantly modernised Paris network. For 125 years, our experts have managed complex projects, improved passenger experience, and participated in major sporting and cultural events. Thanks to this unrivalled know-how, we serve more than 100 cities in 16 countries and 5 continents. We provide custom-made solutions that meet their specific challenges in terms of the environment, social inclusion, growth or attractiveness. We build, deliver and commit for the best of public transport, every day, everywhere, for everybody – to make it the natural choice for cities and passengers.

About PTAANZ

The Public Transport Association Australia New Zealand (PTAANZ) is the premier peak body for all modes of public transport and sustainable mobility in the region. We partner with our members to build and sustain world-class public transport networks that meet the needs of the communities we serve. We have over 70 public and private sector member organisations representing a workforce of over 150,000 people and a multibillion-dollar industry.

As part of our mission to inspire industry excellence, we facilitate a range of events and activities to help our members stay at the cutting edge of best practice and learnings from global jurisdictions that are tackling similar transport challenges to ours.
