8 TRANSPORT MODES

6 MODES OPERATED IN PARTNERSHIP

6 AREAS OF EXPERTISE

Mobility • Urban services • Infrastructure management • Engineering • Sponsorship • Security

At ground level and beneath the city streets, RATP Group experts make daily progress on major urban issues: dense and diverse cities; preservation of the planet and biodiversity; quality of life for residents; connectivity and economic dynamism. With concrete and innovative solutions being applied now to build the city of the future, they bring to life the Group's commitment to better city living.

A COMMITTED AND RESPONSIBLE PLAYER

Ecodesign, responsible purchases, greening of facilities, energy transition, etc. The Group is active across its entire value chain to reduce its impact and support cities on their way to the low-carbon transition.

100%

of activities in the Paris region are ISO 50001 certified (energy management).

BETTER CITY LIVING AS ITS DRIVING PURPOSE

The Group launched a major initiative in 2020 to jointly build its driving purpose : « We dedicate every day to better city living ». It was unveiled in early 2021 and reflects the Group's commitment and its conviction that the city has a future.

138 000

contributions were gathered in jointly building the driving purpose.

A FOUNDATION ROOTED IN REGIONS

The RATP Group Foundation supports public interest projects in the fields of culture, education, employment and the ecological transition, at the heart of regions where the Group works.

210 000

beneficiaries of RATP Group Foundation projects.

Efficient solutions in the heart of the city

SPONSORSHIP

A

PIONEER OF THE AUTOMATED METRO

- Optimal passenger experience.
- Unequalled punctuality.

85

seconds between trains at peak hours on Paris metro line 14.

B

170000 km
of fibre optic cables deployed by RATP Connect en Île-de-France.

Expert subsidiaries and tailor-made offers to meet all your needs

MOBILITY

RATP Group is a major player in public transport in the Île-de-France region, where its long-standing network is among the world's densest and most complex. In France and abroad, it operates urban and suburban multi-modal networks in more than 780 cities through its subsidiaries RATP Dev and RATP Cap Île-de-France.

URBAN SERVICES

Led by RATP Solutions Ville, the urban services offer brings together expertise developed over many years by four of its subsidiaries: RATP Habitat, RATP Real Estate, RATP Connect and RATP Capital Innovation. This offer exclusively targets cities, regions and companies in five sectors: real estate, telecoms, urban logistics, new forms of mobility and energy.

**Solutions
Ville**
by RATP GROUP

OTHER AREAS OF EXPERTISE

Major expertise in other areas completes the Group's range of offers available to cities, including ticketing systems and MaaS (Mobility as a Service), from subsidiary RATP Smart Systems, as well as management of transport networks, whether for sales areas (through RATP Travel Retail) or maintenance (RATP Maintenance Services).
